The Erection of Many Large Structures Here Keep Craftsmen Busy.

BARTENDERS DRAW

International Excludes Negro in Southern States-Meeting of Printers in St. Louis.

Prosperous indeed has been the building trades branches of the labor organizations of this city during the past year. The many contracts that have been let and the upward movement in the construction of large and attractive buildings in the business portion of the city, and the many handsome residences that are in the course of erection in the suburban sections are responsible for this admirable conditions of affairs,

The new cathedral on Laurel Street will The new carnedrai of habite street win offer a source of employment to a large force of the members of the various trades, and it will be several months yet, before this beautiful edifice is completed. The future for these particular branches of organized labor in this city is as bright as has been the past, certainly for the next eighteen months or two years.

Color Line Strictly Drawn.

Mr. Edward Ryan, who represented Lo-cal 498, Bartenders' International League of America, in its twelfth annual con-vention held in Rochester, N. Y., last week, has returned home and gives a glowing account of the proceedings of the body, especially that portion which relates to the Southern States and Virginia. Mr Ryan, in speaking of Southern measures passed, said:

passed, sald:

"We have strictly drawn the color line in fifteen Southern States, and hereafter no colored organization can get a charter in this territory. This move for the betterment of the condition of the white mmbers of the South was accomplished by the conscentrated efforts of the 43 delegates from the South, which, by the way, was a gain of 38 over the attendance at the Philadelphia convention last year.

year.

"I was placed on the Executive Committee of the convention, together with several other delegates from the South, and it was in this position that we got in close touch with the Executive Board and presented our grievances on the color question, with the result that the board recommended to the convention that the line be drawn in the Southern that the line be drawn in the Southern territory. Aside from this victory, we elected Mr. Joseph Bradsen, of Tennessee, fifth yiee-president, the first international oilicer the South has had since the organization of the International.

"There were ten organizers in the field during the last year, and the fruits of their labor is shown in the tremendous increase during that time. At the Philadelphia convention there was 38,000 members represented, and this year over \$6,000 members were reported, an-increase of 21,000. All differences hertofore existing between the local of city and the international were amiably settled and the local is now in a flourishing condition.

elected delegates to the fifty-second annual session, which will be held in St. Louis on Monday, August 8th. The ejec-tions were especially interesting this year from the fact that the sessions will be held in the Exposition City, and in nearly every local vigorous fights were made for the honor. Arrangements have been made by the

The sessions of the convention will be held in one of the halls in the Palace of Agriculture.

The selection of Mr. Walter B. Freeman and Mr. Walter T. Booth to represent No. 90 of this city, gives entire satisfaction to the members of the union The spirit in which the seven aspirants waged their campaign brought out a full vote and four ballots were necessary before a choice could be made. Each of the candidates had their following, and have been true and tried members for years.

Mr. Freeman, who was elected on the first ballot, its a linetype operator, and while young in years, is old in the ranks of his union. His popularity with the "machine" men and the younger element was attested by the flattering vet he received. Mr. Freeman has never attended an international session, but from his knowledge of the affairs and wants of his particular branch of the craft, he will make an able representative.

Mr. Walter T Booth, the second delegate, broke a precedent, or rather an unwritten law of the union in his election. Never before has a member been elected written law of the union in his election. changes. One office was held by an old maiden lady who had kept it for many years—in fact, I think, since the office was first established. Another change was where there was one of the most efficient postmasters in the State.

I asked the Republican county chairman about these changes, and he said if the Democrats elected Parker they would

INDIANA FOR M'CLELLAN

Delany Doing Business in the Hoosier State for New York's Mayor.

(Special to The Times-Dispatch.)
INDIANAPOLIS, IND., May 21.—The men who have made such a persistent fight in this State for Judge Alton B. Parker, and who have conceded that there is a strong sentiment among Democrats in favor of Mayor McClellan, of New York, are greatly interested in several conferences which have been held at French Lick Springs between John J. Delany, corporation counsel of New York, and certain Democrats who are known to favor Mayor McClellan for the

York, and certain beinderta who was known to favor Mayor McClellan for the presidency.

Though Mr. Delany denies that he is here as the agent of New York's Mayor, the conferences are regarded as indicating that he is at least inquiring into the temper of Indiana Democrats, with a view to utilizing any information he may get for the good of his chief.

Certain Democrats have been in communication with members of Mayor McClellan's administration since the demonstration in the State convention, which followed the mention of the Mayor's name, and the presence of Mr. Delany convinces many politicians that he is here to help organize the sentiment, that it may be made effective, if it shall appear that Judge Parker cannot win the nomination. nomination.
It is said here that New York is sure

to turn to Mayor McClellan if Judge Parker cannot be named, and Mr. De-lany's mission seems to be to find out if Indiana would follow New York's lead in such an event.

The fact that friends of former Presi-

dent Cleveland have determined to send a delegation to St. Louis to represent what they assert is the real sentiment of what they assert is the real sentiment of Indiana Democrats, has aroused much opposition among the men who have been "regular" for the last eight years, and many of them are preparing to meet the gold Democrats with facts and figures which they hope will convince the delegates that there could be no safety for the party in a Cleveland boom. They assert that Cleveland would lose Indiana by a higher vote than any man the party could nominate.

Men in the Indiana delegation say they do not believe there is a delegate from the State who would vote for the former President.

(Special to The Times-Dispatch.)

DURHAM, N. C., May 21.—Albert R.
Powell, a negro, was sentenced to death
here Wednesday for criminal assault
against his own daughter.

The first witness was Ida Powell,
daughter of the accused man, who seemingly indifferent to the fate of her father,
testified against him. Several other witnesses, among whom was Powell's wife,
corroborated the girl's statement. The
defendant then went on the stand and
declared that his wife and daughter were
conspiring against him on account of
his having found both of them in a compromising position with another man. He
will hang June 20th.
